County Exec Diana Visits BOCES End-of-Year CTEC Car Show *Students Present Keys to Two Repaired County Vehicles*

Goshen – For students participating in Orange-Ulster BOCES Career and Technical Education Center's (CTEC) Transportation program, the annual car show held at the Goshen campus is their opportunity to show their fellow classmates all that they've learned over the past year. Joined by instructors Joe Dolan and Mark Wolf, this year's class presented County Executive Edward A. Diana with the keys to two County vehicles that they repaired as part of their class activities.

"The CTEC Transportation students did an outstanding job in repairing two County vehicles," said Mr. Diana. "While they received valuable hands-on practical experience, the County is able to return to service two vehicles that would have otherwise been total losses. This relationship has truly been a win-win for our students and the County. I appreciate their hard work and applaud their accomplishments," added Mr. Diana.

In his remarks to the assembled students, faculty, and guests, Mr. Diana reminded students that driving is a privilege which comes with great responsibility. He cautioned students to drive with care and never, ever drink and drive. In closing, he wished everyone all the best for safe and happy summer.
