DIANA COMMENTS ON METRO-NORTH ANNOUNCEMENT TO RESUME FULL PORT JERVIS LINE SERVICE NOVEMBER 28

(Goshen, NY) – Orange County Executive Edward A. Diana made the following comments today regarding Metro-North’s announcement that the transportation authority has expedited repairs on the Port Jervis Line and will resume full service with through trains beginning on November 28:

I am delighted to hear that train commuters in Orange County will be able to get back to their pre-storm travel schedules a month earlier than originally expected.

I want to thank Metro-North President Howard Permut for listening to the concerns of Orange County residents and for making the repair of the Port Jervis Line a priority in the aftermath of the recent storms that devastated our region.
